FOREWORD

In addition to this Catalog, the Indiana State Normal School publishes:

- I. THE INDIANA BOOK OF INFORMATION—an illustrated booklet designed to give a clear idea of the school by means of pictures and descriptions. This will be sent on request to any prospective student.
- II. AN ALUMNI DIRECTORY—to be issued every three years and devoted entirely to the alumni of the school. The first issue was in 1922. This is for alumni only.
- III. THE NORMAL HERALD—issued four times a year. One issue is the annual catalog. The other three issues are devoted to interests of the alumni.

Students and prospective students are always interested to know what are the definite and specific things which a school offers. The Indiana State Normal School offers:

- I. THE REGULAR TEACHERS' CURRICULA—the objects of which are the preparation of teachers for the usual teaching positions offered by the public schools, open only to graduates of approved secondary schools. (See pp. 44 to 50 for details.)
- II. THE SECONDARY CURRICULUM—designed to afford the facilities of a first class high school for those young people who have completed the educational facilities of their home communities, who desire to teach, and who have not the necessary credits for entrance to the Regular Teachers' Curricula. (See pages 50-51 for details.)
- III. THE MUSIC DEPARTMENT—a Public School Music Course of three years. (See pages 52-57 for further particulars.)
- IV. THE COMMERCIAL DEPARTMENT—which offers a Commercial Teachers' Training Course of three years. (See pp. 56 to 64 for further details.)
- V. THE HOME ECONOMICS CURRICULUM—of three years, the purpose of which is to prepare persons to teach the subject in public schools. (See pp. 65 to 69 for details.)
- VI. THE NORMAL ART CURRICULUM—of three years, to prepare teachers of drawing. (See pp. 70 and 73 for details.)

Contents

The following analysis of the contents of this catalog may assist you in finding readily the thing in which you are interested. If it does not do so, try the index found on the last pages of the catalog.

- *HELEN FINCH.....Violin
Education: Public School, Marion, Iowa, 1901-1909; County High School, Dillon, Mont., 1911-1914; Polytechnic High School, Long Beach, Cal., 1914-1915; St. University, Missoula, Mont., 1915-1918; Private Aeolian study with Cecil Burleigh, Composer, violinist, 3 years, also pupil of Theadan Spiering, New York City, 1918-1919; Preparatory study with Wilhelmj Montelias, Cedar Rapids, Ia., and Rudolph Brand, Los Angeles, Calif. Harmony 3 years with Cecil Burleigh and R. Huntington Woodman, New York City.
Experience: Violin teacher, Summer Session, Missoula, Mont.; Violin teacher, Dillon, two years; Violin teacher in High School from January to June. In present position since 1921.

*Resigned.

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

MILDRED HUGHEY, A.B. Assistant Professor Public School Music

Education: Graduate of Breet Street Grammar School, Los Angeles, Calif., 1906; Graduate of Los Angeles High School, Los Angeles, Calif., 1910; Graduate of Los Angeles State Normal, Los Angeles, Calif., 1912; Graduate of Mills College, Oakland, Calif., 1921.

Experience: Elementary Teacher, Meloland, Imperial, Calif., 1912-1913; Elementary Teacher, Los Angeles, Calif., 1913-1919. In present position since 1921.

MARY R. LOWMAN Assistant Professor Public School Music

Education: Johnstown, Pa., 1892-1920; Johnstown High School, Johnstown, Pa., 1900-1904; Graduate of Indiana Normal, Indiana, Pa., 1905; Cornell Summer, Ithaca, N. Y., 1910-1912; Columbia Summer Session, New York, 1914; New York University, Summer Session, New York, 1916-1919.

Experience: Elementary Teacher, Johnstown, Pa., 1905-1913; Assistant Supervisor of Music, Johnstown, Pa., 1913-1917; Supervisor of Music, Johnstown, Pa., 1917-1921; Instructor, New Brunswick, N. J., 1920-1921. In present position since 1921.

ANNA P. LUMLEY Public School Music

Education: Williamsport, Pa., High School; Dickinson Seminary; Graduate in Public School Music, Thomas Normal Training School, Detroit, Mich., 1907; Chautauqua; studied Voice under Roscoe Huff, Williamsport; Frank Daniel, Scranton; Ida Stone, Newman, Detroit; Frank Croxton, New York; Westchester, Summer of 1922.

Experience: Concert Soloist, 1905-1918; Supervisor of Music, Waynesboro, Pa., 1907-1917; Voice Teacher, 1907-1918. In present position since 1918.

GLADYS WASHBURN, A.B., B.M. Assistant Professor Public School Music

Education: Hawthorne School, Oakland, Calif., 1907-1913; Graduated from Fremont High School, Oakland, Calif., 1917; Mills College, Oakland, Calif., A.B., B.M.

Experience: Cornell University, New York, Summer of 1921. In present position since 1921.

KATHERINE JACKSON BREW Librarian

Education: Brooke Hall, Pa.; Vassar College; West Virginia University.

Experience: Broadus College, Philippi, W. Va., 1918-1919; Davis Elkins College, Elkins, W. Va., 1919-1920. In present position since 1920.

MRS. MINNIE L. LOYD Assistant Librarian

Education: Dallas Academy, Dallas, Tex., 1885-1888; Martin College, Pulaski, Tenn., 1888-1890; Belmont College, Nashville, Tenn., 1890-1892.

Experience: In present position since 1921.

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

JENNIE M. ACKERMAN..... Director of the Training School

Education: De Garmo Institute, New York, 1890-1892; State Normal School, New Paltz, N. Y., 1892-1894; Columbia University, Summer of 1892.

Experience: Teacher in grades and in High School, Red Bank, N. J., 1894-1897; Head of Training School, East Stroudsburg, Pa., 1897-1902; Critic Teacher, State Normal School, Indiana, Pa., 1902-1903; Teacher of History and Geography, I.S.N.S., 1903-1904. In present position since 1904. At Indiana, Pa., since 1902.

LILLIAN I. MCLEAN, B. S..... Primary Supervisor

Education: Graduate of Fort Scott, Kansas; S.M.T.C. Pittsburg, Kansas, B.S. 1915; Columbia University, New York, 1919-1920.

Experience: Elementary Teacher, Fort Scott, Kansas, 1907-1909; Elementary Teacher, Kansas City, Mo., 1909-1911; Supervisor Critic, Pittsburg, Kansas, 1915-1921. In present position since 1921.

INEZ BUCHANAN..... Training Teacher

Education: Graduate I.S.N.S., 1917; Summer School at Columbia, 1921.

Experience: Grades, Altoona, Pa., 1917-1920. In present position since 1920.

ETHEL BUSH..... Training Teacher

Education: High School, Jamestown, N. Y., State Normal School, Fredonia, N. Y., Special work at Oneonta State Normal and Chautauqua.

Experience: Rural Schools, two years; Grades, Kennedy, N. Y., one year; First Grade, Canahojari, N. Y., two years; Model School, Montpelier Seminary, two years. In present position since 1920.

*MARY E. DOOLITTLE..... Training Teacher

Education: Graduate of Public School, Cazenovia, N. Y., 1907; Graduate of Seminary, Cazenovia, N. Y., 1911; Graduate of State Normal, Cortland, N. Y.

Experience: Elementary Teacher, Sea Cliff, N. Y., 1914-1917; Private School Teacher, Connecticut, 1917-1919; Private School Teacher, Ossining, N. Y., 1919-1920; Principal and Teacher Elementary School, Burlington, N. J., 1920-1921. In present position since 1921.

AMY GRAY..... Training Teacher

Education: State Normal School, Jamaica, N. Y., 1898-1902; New York University Summer School, 1909; New York University, School of Pedagogy, 1909-1910; Teachers' College, Summers of 1921 and 1922.

Experience: Grade work in Public Schools, Babylon and Hicksville, N. Y., 1902-1906; Assistant Principal, with departmental work in High School and Grammar Grades, Hicksville, N. Y., 1906-1911; Principal of Public Schools, Hicksville, N. Y., 1911-1912. In present position since 1912.

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

GERTRUDE M. HAWKINS.....Kindergarten

Education: Graduate of Union Free School, Delhi, N. Y., 1913; Graduate of Delaware Academy, Delhi, N. Y., 1917; Graduate of State Normal, Cortland, N. Y., 1920.

Experience: Elementary Teacher, Binghamton, N. Y., 1920-1921; In present position since 1921.

MRS. LUCILE T. MATHEWSON.....Training Teacher

Education: High School, Greene, N. Y., 1904; State Normal School, Cortland, N. Y., 1915-1917.

Experience: Pearl River, N. Y., 1917-1919; Ossining, N. Y., 1919-1920 (half year). In present position since 1920.

MARGARET M. MORRIS.....Training Teacher

Education: Westville Grade School, Westville, Ohio 1891-1899; Westville High School, Westville, Ohio, 1899-1903; Graduate of Ohio State Normal College, Athens, Ohio, 1912; Ohio University, Athens, Ohio, Summer 1919; Teacher's College, New York, Summer 1915; Ohio State University, Columbus, Ohio, Summer 1920.

Experience: Teacher, Spring Hill, Ohio, 1903-1906; Central School, Clinton County, Ohio, 1906-1911; Akron, Ohio, 1912-1915; Critic Teacher, Ohio State Normal College, Athens, Ohio, 1915-1920; Elementary Teacher, East Cleveland, Ohio, 1920-1921. In present position since 1921.

MALVINA GARMAN RIDDLE, Pd.B.....Training Teacher

Education: Graduate, State Normal School, Indiana, Pa., 1882; student Chautauqua Summer Schools, 1894 and 1898. University of Pittsburgh, Summer of 1922.

Experience: Teacher in Public Schools, Greensburg, Pa., 1883-1885; Teacher in Public Schools, Indiana, Pa., 1893-1896. In present position since 1896.

FLOSSIE WAGNER.....Training Teacher

Education: New Bethlehem High School, 1911-1915; State Normal School, Indiana, Pa., 1915-1917; Teachers' College, Summer of 1921.

Experience: Public Schools, DuBois, Pa., 1917-1918; Public Schools, Latrobe, Pa., 1918-1919. At Indiana since 1919.

BOROUGH SCHOOL TRAINING TEACHERS

LAURA BASH.....

Education: Graduate of Public Schools, Indiana, Pa., Graduate of State Normal School, Indiana, Pa., 1895; Columbia University, New York City, Summer Session 1921; Chautauqua, N. Y., Summer Session, 1916; University of Michigan, Ann Arbor, Mich., 1902.

Experience: District Teacher, Indiana and Cambria Co., Pa., 1890-1892; Elementary Teacher, South Fork, and Westmont, Johnston, Pa., 1895-1904; Elementary Teacher, North Braddock and Cone-maugh, Pa., 1906-1907; Elementary Teacher, Indiana, Pa., 1907-1921. In present position since 1921.

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

TEMPE H. DAMERON, B.S., M.A.

Education: Ridgeway, High School, N. C., Graduate of N. C. College for Women, Greensboro, N. C., 1904; B. S. and M.A. Peabody College Nashville, Tenn., 1916-1921.

Experience: Elementary Teacher, Public Schools, N. C., 1904-1916; Supervisor and Teacher, Buckhannon, W. Va., 1917-1920. In present position since 1921.

MYRTLE L. HESSE.

Education: Roseville Public School, Roseville, Ohio, 1898-1906; Graduate of Zanesville High, Zanesville, Ohio, 1910; Graduate of Ohio University, Athens, Ohio, 1915.

Experience: Elementary Teacher, East Liverpool, Ohio, 1911-1914; Elementary Teacher, Pickaway Cent. School, 1915-1916; Elementary Teacher, East Liverpool, Ohio, 1916-1918; Critic, Ohio University, 1918-1921. In present position since 1921.

MARGARET J. LOWMAN.

Education: Graduate of Jacksonville Public School, Jacksonville, Pa., 1902; Graduate of State Normal, Indiana, Pa., 1905; Summer Session, Columbia University, New York, 1921; Summer Session, Kansas State University, Lawrence, Kans., 1906; Summer Session, Chautauqua, N. Y., 1920; University of Pittsburgh, Summer of 1922.

Experience: Elementary Teacher, Walnut Grove, 1905-1908; Elementary Teacher, Indiana, Pa., 1908-1921. In present position since 1921.

ANNABELLE POLLOCK, B.A.

Education: Public Schools, New Concord, Ohio and Garner, Iowa, 1898-1905; Garner High School, Garner, Iowa, 1905-1909; Iowa State Teachers College, Cedar Falls, Iowa, B.A. 1921.

Experience: Rural Teacher, Hancock Co., Iowa, 1910-1914; Elementary Teacher, Correctionville, Iowa, 1914-1916; Elementary Teacher, Oelwein, Iowa, 1916-1918; Assistant Critic, Cedar Falls, Iowa, 1920-1921. In present position since 1921.

JOY MAHACHEK, B.A.

Education: Grade School, Austin, Minn., 1905-1912; Graduate of Austin High School, Austin, Minn., 1916; B.A. Iowa State Teachers College, Cedar Falls, Iowa, 1920.

Experience: Supervisor, Cedar Falls, Iowa, 1920-1921. In present position since 1921.

Administrative Organization of the Faculty

OFFICERS OF THE FACULTY

Principal.....	JOHN A. H. KEITH
Dean of Women.....	HOPE STEWART
Dean of Men.....	W. M. WHITMYRE
Director of Musical Conservatory.....	ROBERT A. BARTHOLOMEW
Director of Art Instruction.....	JEAN R. McELHANEY
Director of the Commercial Department.....	G. G. HILL
Director of Home Economics Dept. and Dietitian.....	EDNA M. RANDALL
Director of the Training School.....	JENNIE M. ACKERMAN
Librarian.....	MRS. KATHERINE JACKSON BREW
School Nurse.....	BLODWYN ROBERTS
Bursar.....	FRANCES M. BURKE
Registrar.....	MARY L. ESCH

STANDING COMMITTEES OF THE FACULTY AND THEIR DUTIES

(All acts of the faculty committees are subject to the approval of the Principal.)

Advanced Standing:

This committee determines the value of all work done in other schools which is offered by entering or prospective students for advanced standing here, and reports its findings to the Principal.

Athletics:

This Committee has general supervision over all public athletic games, exhibitions, and contests, and has control over the arrangements for such games, exhibitions, and contests with other schools or associations.

It has control over the finances and property of the Athletic Association, and over the purchase of needed athletic supplies.

It decides what candidates for membership on teams or for admission to athletic games, exhibitions, and contests are eligible, and it shall exclude from participation those whom it finds below the standard in their studies, or ineligible for any other cause.

It has power to appoint or remove Captains for the various teams.

Classification:

This Committee enrolls and classifies all students.

It sees that a full and correct registry of students is kept in the office, with copies of individual programs.

Subject to such regulations as may be adopted by the Principal, it passes upon all requests for changes of program.

It sees that the grades made by students each term are duly reported to the recording official.

It follows up students' work and disciplines delinquents when in its judgment it thinks best, and also offers such advice and encouragement as seem wise.

It has the power to call upon teachers for weekly reports of the standing of students whose work is under its consideration.

Commencement:

This Committee has general directive charge of the affairs of Commencement. It sees that the diplomas are ready, and has proper programs printed.

Dining Room:

This Committee has general charge of all dining-room matters not coming under the official control of the Steward and Dietitian; it arranges the seating; it is responsible for good order, not only in the dining-room, but upon entering and leaving the same; in this work it has the cooperation of all members of the Faculty.

Lecture Course:

This Committee selects and contracts for all lectures and entertainments for the regular Normal Lecture Course.

All entertainments, excepting those which come under the control of other regular committees or the Principal, must receive the approval of this committee and be subject to its regulations before they shall be permitted to appear in the Chapel.

Literary Societies:

In working with the committees appointed by the Societies, or in working with the Society officials, this Committee represents the Faculty. It seeks to make more effective and valuable the work of the literary societies, and to this end advises with the members of the societies from time to time.

It has general charge of all contests, inter-society or inter-collegiate, and open meetings.

Any and all society meetings are open to the members of this Committee, and its members are required to attend the meetings from time to time.

Recommendations and Positions:

This Committee assists graduates and qualified students to secure positions to teach, and aids school officials in procuring teachers.

It collects complete and accurate information respecting all applicants for positions to teach who ask the assistance of the Committee.

The Committee seeks to assist school authorities in procuring competent teachers. The plan is to recommend candidates best suited to fill vacancies and not to send out general letters of recommendation.

School authorities who write the Committee will have full and confidential information in regard to applicants.

School officers are cordially invited to visit the Normal to inspect the work of those whom they may wish to secure to fill positions. Correspondence is invited from Boards, Principals, and Superintendents in regard to vacancies and teachers. This information will be treated in full confidence and all possible assistance will be gladly given.

While the chief work of the Committee will be to help the students who are in attendance, yet it is the purpose to lend assistance to graduates and former students in securing for themselves more satisfactory positions. To this end the full cooperation of Alumni and former students is earnestly desired. Write to the Committee when in need of a teacher. Supply information concerning vacancies.

All correspondence in regard to location of teachers should be addressed to the Secretary or the Principal.

The Normal, through its Committee on Recommendations and Positions, is prepared to give systematic aid to its graduates and students in securing suitable positions to teach.

Religious Work:

It is the function of this Committee to assist and encourage the students in all religious work. It advises with the officers of the Y. W. C. A. and Y. M. C. A.

School Magazine:

This Committee has general charge of the publication known as The Normal Herald.

Social Life:

This Committee has general and executive charge of the social life of the students. It directs and controls the Saturday evening social, the Halloween and Washington's Birthday events, and such other affairs as the Hauxhurst spreads, hay-rides and sleigh-rides, as well as all dances given at the school.

STATEMENT OF EXPENSES

History of the School

The plan of this Institution was conceived in the sixties, the first money, some twenty thousand dollars, being subscribed for its founding in 1869. The first recognition by the State was through an act of the General Assembly in 1871, but the school was not opened until May 17, 1875. Its first principal was Dr. E. B. Fairfield, who afterwards, as the first Chancellor of the University of Nebraska, so largely influenced the future of that institution.

Among the notable men present upon the opening day of the school was one of Pennsylvania's most famous educators, then State Superintendent of Public Instruction, James P. Wickersham, who stated in his public address that it was his opinion that Indiana's first building was the largest, finest and best-planned structure devoted to normal school education in the United States. A monument to its founders, that building still stands, and in honor of the first president of the board of trustees, it is known as John Sutton Hall.

In 1893 there was erected upon our campus a brick residence for men students. The building was forty by one hundred feet, and consisted of a basement and three stories. In February, 1906, this building burned to the ground. There were excellent fire escapes, so not only were no lives lost, but there were no serious injuries.

The ruins were not cold before the trustees were planning for a larger and better dormitory for our young men, and in January, 1907, the Indiana boys took possession of one of the best school residences for men in the State. The building stands upon the site of the old one, but is somewhat larger, and is known as Clark Hall, in honor of the board's second president, the late Justice Silas M. Clark of the Supreme Bench.

In 1893, also, the board erected, to the northward of the main building, the Model School, and named it, in honor of their third president, the A. W. Wilson Hall. This building contains eight large, airy classrooms, with ample playrooms in the basement for use on stormy days.

The year 1903 marked a strong advance in Indiana's material equipment. The Normal's Recitation Hall was then erected. It stands just to the southward of Wilson Hall, completing the east wing of the quadrangle. A stately structure it is and one of the most beautiful on the campus. The dimensions are a frontage of one hundred and thirty feet and a depth of one hundred and twenty-three. The building is the school proper of the Normal and contains twenty-four large, beautiful rooms. The Trustees honored themselves by naming this building after one of their widely known and most faithful teachers, Jane E. Leonard.

During that same year (1903) there was erected to the westward of the south wing of John Sutton Hall another most beautiful and imposing structure, one hundred and twenty-three by ninety-two feet in size and three stories high. In the basement of this building is the laundry and storage, while on the first floor are the kitchens, dining-rooms, and the Steward's office; the Music Conservatory occupies the second and third stories. This building is known as Thomas Sutton Hall, in honor of the President of the Board of Trustees.

During the past few years something more than \$60,000 has been spent in improving the Institution's plant, the most noteworthy improvement being the erection of a cold storage plant in connection with the refectory. This cold

storage plant is pronounced by experts to be one of the very best in all the country. It enables the school to manufacture its own ice, and to furnish its students at all times with the choicest fresh meats.

During the year 1910 two notable additions to our buildings were made—an annex to the dining hall, seating over two hundred, and an annex to the girls' dormitory, accommodating sixty-two girls. The dining-room annex contains a very large fireplace, which promotes good cheer and helps the ventilation materially. The annex to the girls' dormitory affords to each two girls occupying it a suite consisting of a sitting-room and a bed-room. There are two large wardrobe closets, one for each girl. In the bedroom each girl has her own bed, and there is a porcelain lavatory supplied with hot and cold water. No dormitory, however high the charges of the school, affords its occupants better rooms than these. This building is practically fireproof, and its bath-rooms—one on every floor—are tiled and finished in Italian marble. Occupants of these rooms pay from seventy-five cents to one dollar a week extra.

During the year 1913 the Trustees bought land off the Campus and across the P. R. R., and erected a Power Plant at a cost of \$140,000. This is one of the most complete plants owned by a school. It provides all heat and light and furnishes power for the elevators, ventilating fans, and culinary machinery.

During the year 1914 the Ambulatory around Recreation Hall was built and the Hall itself entirely reconstructed. The "North Annex" to the girls' dormitory was built, providing rooms for seventy girls. The rooms in this annex are larger than those in the old dormitory, and they are better furnished than any other of our rooms; each girl has her own bed, her own desk, and her own study-light. An addition nearly doubling the capacity of the kitchen was built, and more than \$3,000 worth of new kitchen appliances were added. A large fruit cave, ten feet by sixteen by twenty-four feet, entirely underground, was constructed. This cave is water-proof, and enables the school to have fresh fruit practically the year round.

During the year 1915 an addition was built, that doubled the capacity of the "North Annex." The rooms in the new part are better, however, than those in the part first constructed. In addition to the advantages thus afforded, each room opens into a private dressing room with lavatory supplied with hot and cold water. The entire first floor of the addition to the "North Annex," 101 feet in length, is now occupied by the Library.

During the summer of 1915 an addition was built to our dining-room, and \$10,000 was spent in repairing and decorating the room. Those who have seen many schools announce their opinion that ours is the finest school dining-room in America.

In April, 1920, the entire control and ownership of the school passed to the State of Pennsylvania.

Material Equipment

THE BUILDINGS

These have already been quite fully described. They all are built of stone and brick in the most substantial manner, and are heated by steam. The building used as the girls' residence is equipped with three large electric passenger elevators, running from the basement to the top floor, which makes the upper floors more desirable in some respects than the lower ones.

This entire building is heated by steam and lighted by electricity. Every floor is supplied with an abundance of hot and cold water, and the bath-rooms, lavatories, and water-closets are of the most approved patterns.

On account of our method of lighting and heating, the possibility of a fire is small, while danger from it is reduced to a minimum by ample arrangements for extinguishment, and by fire-escapes abundantly provided for each floor.

In brief, this immense building is planned and furnished throughout for the convenience, safety, and success of its occupants.

Each student's room is furnished with a bedstead, a bureau, a washstand with necessary china, two chairs, a study table, and a neat case of bookshelves. All rooms are carpeted and have plain shades to the windows. Many of the rooms are also furnished with single beds.

The night watchmen have their headquarters in this building, and make the rounds of all the buildings on the campus four times each night.

Each student room in the boys' dormitory is furnished with two single iron bedsteads, a bureau, a washstand with necessary china, two chairs, and a study table. The windows are provided with plain shades.

A bubbler, gift of the Class of 1901, is installed on each floor of the Dormitory.

THE LABORATORIES

for physics, chemistry and biology are located on the first floor of Leonard Hall. Few, if any, normal schools in this country are better equipped for science work than is Indiana.

These laboratories are supplied with every necessary instrument and equipment for individual study.

THE LIBRARY

A good reference library is accessible every day to all students. Here are found the leading encyclopedias, dictionaries, and other standard reference books, historical charts, maps, and other conveniences so essential to successful student life.

There is also a large library of choice works of history, biography and literature free to all students.

The Red Star system of book selection has been added. A number of books have been singled out for their humor, attractive stories, or for beauty in thought and expression.

The purpose is primarily to raise the standard of reading, and to increase love for and knowledge of the valuable works of the ages.

It is not the aim to mass books merely for the sake of making a large library; but we do aim to have every usable book and periodical.

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

The additions to the library during the year will aggregate about five hundred volumes.

We aim to give a brief course to each student on the use of a library.

In connection with the library is a reading-room, supplied with newspapers and periodicals as follows:

AMERICAN BOY	NATION
AMERICAN COOKERY	NATIONAL GEOGRAPHIC MAGAZINE

THE INFIRMARY

is pleasantly located in a retired portion of the south wing of John Sutton Hall. This infirmary, by every physician who has ever seen it, has been pronounced to be one of the finest and best in the state. It contains three tiled bath-rooms, a dispensary, a kitchen and dining-room, nurses' private quarters, ample closets, ward for girls, private room for girls, ward for boys, and private room for boys. The west end is fitted for boys, the east end for girls. These two apartments are separate and distinct, being divided by a hall.

Every sanitary precaution is here taken, and every necessary arrangement is provided for the intelligent care of the sick. A graduate nurse is always in charge. Many a serious illness has been averted by early caring for the student in this Infirmary. The excellent health of our girls is proverbial, and the Infirmary is responsible in no small degree for it. A charge of fifty cents a day is made for care in the Infirmary, after the third day, but no charge is made for dispensary service. In case the illness is such as to require the care of a physician or special nursing, the student pays that cost, and the cost of filling the physician's prescriptions. At some distance from the main buildings and off the campus, the institution maintains a small hospital in which cases are confined if there is cause to suspect contagion.

In short, every precaution is taken to protect the health of the Indiana student; and during more than forty years but three deaths have occurred in the Institution, and it has never suffered from an epidemic, notwithstanding the thousands who have been under its care. Students who, because of severe or prolonged illness, have to be transferred to a private hospital, have to pay the expense incurred at such institution and the cost of the transfer.

Students who, because of suffering from a contagious disease, have to be removed to the school hospital, have to pay ten dollars a week while in the hospital for nursing, and no deduction is made from the regular term payments.

BOARDING

All who visit the Institution are delighted with its beautiful, spacious dining-room, and its immaculately clean kitchen, fitted up with every modern appliance of worth. The kitchen is presided over by an expert chef. There are four assistant cooks. The great bake-ovens are in the basement. We bake all our bread (white, Vienna, Graham, whole wheat, corn-bread and biscuits), pies and puddings. A professional baker has charge of the ovens.

All water served on our tables is filtered.

Each table seats from eight to twelve, and so far as possible is presided over by a teacher.

It is the aim of the dietitian to provide good, substantial, wholesome food. While it is plain, it is always of the best quality to be found on our markets.

It is doubtful if there is another school in the country, whatever its character or charges, that provides a greater variety of, or more wholesome, food for its students than does Indiana. Our bills-of-fare vary with the seasons. Special meals are prepared for the sick in the Infirmary.

Students are not permitted to room and board with private families, or to room in private homes and take meals in the school, except on the order of the Principal. Such permission is granted only after investigation of each case.

LAUNDRY

The Institution owns a first-class laundry, and has it under the management of competent people. The price of board in this school includes free laundry to the extent of ten plain pieces a week, in addition to towels and napkins. In the basement of the girls' residence is a place to do washing and ironing, for the use of girls only, and many of them attend to the laundering of their own handkerchiefs and other small pieces.

All articles sent to the laundry must be plainly marked with the name of the owner in some indelible form, and should be in a laundry bag.

All water used in our laundry is filtered, in order to eliminate any possibility of spreading infectious diseases.

OUTFIT AND ROOMS

Outfit: Students are expected to provide themselves with towels, table napkins, soap and other needful toilet articles, as well as curtains for room windows.

Bed linen and counterpanes will be furnished. All blankets and comforts must be furnished by the pupil.

Rooms: Students in actual attendance at the close of one semester are entitled to preference in the choice of rooms for the next semester. But room will not be reserved for a girl when in attendance at the school, unless she makes a deposit of ten dollars with the school. If the student making deposit returns at the opening of the next semester and claims her room, the deposit of ten dollars will be deducted from the regular payment then to be made; otherwise, the deposit is forfeited to the school. All other students are entitled to choice of rooms in the order of the receipt of their applications and room reservation fee of ten dollars.

If application for refund of reservation fee is made prior to August 1st, the entire amount will be refunded. If application is made between August 1st and 15th, one-half the amount will be refunded. After August 15th, absolutely no refund will be made.

No rooms, selected by or for students, will be held for them beyond the first day of the term, except upon special agreement to that effect, and charge will in all cases be made for rooms thus held.

Each room is intended to accommodate two boarders, and the scale of prices given in this catalog is arranged accordingly. Students may not room alone, except with the permission of the school authorities.

When the rooms in the school buildings are filled, the school rents rooms from families in town. Students occupying rooms at homes thus provided, pay the regular rates for board, rooms and laundry to the school, they board in the school's dining room and have their laundry done in the school's laundry, they are under the same regulations as regards hours of study, receiving callers, attending social affairs, etc., as are students in the school's dormitories. Such students also have all student privileges. This cooperative plan has been found more satisfactory than for students to rent rooms for themselves.

LOCATION

The Institution is fortunate in its location, the site being one of great natural beauty, while the surrounding town is characteristically beautiful, and has developed those moral influences so desirable in the seat of an institution of learning. The town has a population of more than 7,000 and maintains churches of the following denominations: Methodist Episcopal, Free Methodist, Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Wesleyan Methodist, German Lutheran and Christian.

Growth and improvement have especially marked Indiana in the past few years, and bid fair to continue. Many blocks of excellent paving have been laid, and contracts for many more have been let.

The place is reached by rail without difficulty, being the northern terminus of the "Indiana Branch" of the Pennsylvania, the change from the main line being made at Blairsville Intersection, where the Indiana train awaits the main line train. The Indiana Branch connects at Blairsville with the West Penn. Division. Indiana is also on the Buffalo, Rochester and Pittsburgh, which gives connections with all northern points. The Institution is within ten minutes walk of either depot. The Pennsylvania stops all its trains at the "Campus Landing" on the first day of each term. Both the railways put on extra coaches at the opening of each term in order to accommodate all, if possible, with seats.

Telephone connection can be made from the main building with all leading points.

Reference has been made to Indiana's naturally beautiful location. Here in the foothills of the Alleghanies, fifteen hundred feet above sea-level, with a clear, pure atmosphere, its inhabitants have always been free from miasmatic or malarial complaints. For almost half a century the health record of the school has been phenomenal.

Our campus, comprising twenty-three acres, has its natural beauty greatly enhanced by the constant care of a landscape gardener. It is the belief of the Institution's authorities that such surroundings are a potent factor in the up-building of the student's character.

Student Life at Indiana

FUNCTION OF THE STATE NORMAL SCHOOL

Pennsylvania, in common with most of the American states, realized practically from its founding the necessity of an educated citizenship. It is axiomatic that a just and efficient government must and will be controlled and administered by the educated; hence, the genius of our government implies an educated citizenship. This attitude of the state toward the instruction of its people makes it the one competent agency in supplying qualified teachers for its schools. This the State of Pennsylvania does through its State Normal Schools, whose function is the preparation of teachers for the common schools of the state. The learning and training imparted by the state through its Normal Schools has not for its purpose the bettering of the condition of one class of persons at the public expense; the school does not exist for the benefit of its students simply, but for the benefit of the whole people, and its work is done with the general welfare always in view.

DISCIPLINE

All questions of internal organization in a school must be determined by the fundamental conception of the function of the school. In determining the nature and character of discipline in a normal school, the function of the institution makes it necessary that it be but slightly, if at all, reformatory in its nature. The general welfare of the state would not be promoted by licensing one of evil tendencies or certain shortcomings to teach in the schools of the commonwealth.

It is, therefore, the policy of the administrative authorities to ask any student who does not conduct herself or himself in all things as becomes the lady or gentleman, or who is found not to be adapted to the life and work of the school for other reasons, to withdraw from the Institution.

In the government of the school, the largest liberty consistent with good work and order is allowed. The disciplinary power of the Institution is brought to bear upon the student, only to bring him to a rational understanding of freedom, and to lead him to such self-government as will make him capable in the future of wisely governing others who shall become his pupils.

It is the desire and aim of the Faculty to make the government in the school ethical in its basis.

RELIGIOUS INFLUENCES

This school is not denominational in any sense. Its authorities, however, aim to make it a place of gentle but positive Christian influence. To this end, family worship is held daily; students are required to attend the church of their own choice on Sunday mornings.

The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all whose homes are in the Institution. These associations have charge of the Thursday evening prayer-meetings. Endeavor is made to promote Sabbath observance.

Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life.

Besides these associations, there are various others of a practical type and in a highly prosperous condition.

The denominations that maintain churches in Indiana have already been mentioned.

There is a Vesper Service each Sunday evening which all boarding students attend.

THE LECTURE COURSE

The Institution maintains an excellent free lecture course for its student body. On this course is always to be found the best obtainable talent. During the past season our students had the privilege of hearing in the Chapel, among others: The Mollusc, Edward Reno, Edwin Whitney, Chester M. Sanford, Lorado Taft, Phildellah Rice, Dr. Fritz Holm.

ARTISTS' RECITAL COURSE

In addition to the Lecture Course, there was given at the Normal School in 1921-1922, among others, the following:

FLONZALEY QUARTET, RUTH RAY, VIOLINIST,
PAUL REIMERS, TENOR, AND MAUD MILLER, HARPISIT.

The course will probably be continued year after year. It affords an unusual opportunity for the students of the Normal School to hear the best musical artists of the country.

There are frequent Artist Recitals by members of the Faculty of the Conservatory of Music.

SOCIAL LIFE

The residences of the young ladies and of the young gentlemen who attend this Institution are entirely separate. All use the same dining-room, however, which adds greatly to the social and cultural life of the school. All social events in which the sexes mingle are under the direct charge of a faculty committee.

GRADUATION

In order to be graduated from any Pennsylvania State Normal, the candidate must have passed satisfactory examinations under the Faculty in all the branches required in each year of the chosen curriculum, and in student teaching. The candidate must also have spent at least two years as a student in the school, unless a graduate of an accredited college, or a teacher in service in Pennsylvania prior to July 1, 1922, in which case residence during a half year only may be required.

Graduates of second grade high schools may be required to spend three years in residence at the school; but it may be possible to shorten this period in exceptional cases.

CERTIFICATE AND DIPLOMA

The State Normal Certificate is issued to those who are graduated. It entitles the holder to teach in the public schools of the state for two years without further examination. The State Normal Diploma is a license for life to teach in this state, and is issued to graduates who have taught in the common schools of the state for two full annual school terms of not less than seven months each after graduation, and who present certificates of successful teaching from each of the school boards, countersigned by the county, city or borough superintendent. The school will furnish graduates blanks for these certificates when they ask for them. A charge of fifty cents is made to cover the expense of issuing the diploma, and an additional charge of one dollar is made if the name of the graduate is engrossed thereon. Those who want their diplomas sent to them by mail must send twenty-five cents to pay for registration.

CAP AND GOWN

The regulation cap and gown, sanctioned by the Intercollegiate Bureau and Registry of Academic Costume, are worn by Seniors of this Institution, upon the proper occasions.

The cost of the cap and gown ranges from \$6.50 up.

The rental for cap and gown is \$2.50.

Student Organizations

LITERARY SOCIETIES

There are two literary societies—the Erodolphian and the Huyghenian. These organizations meet in the Chapel every Monday night—each society presenting a program on alternate Monday nights for the entertainment of the other society. In this way a spirit of wholesome rivalry and intelligent competition is kept alive. The programs consist of readings, speech making on current affairs, discussions, playlets, pantomimes and music.

Each organization presents annually a full evening play. All Juniors and Seniors must belong to one of the two societies.

The special and business meetings are held in the well-furnished halls set apart for these two social and literary interests.

THE LINCOLN DEBATING CLUB

The Lincoln Debating Club is an organization for men students. Its purpose is to develop ready and useful public speakers.

The membership is limited to fifty, and these are divided into three sections, each section debating every third week. The regular program consists of a prepared debate on some serious question of the day and impromptu speeches on current topics.

The club has the benefit of a Faculty coach.

Fraternities

PHI ALPHA

The Iota Chapter of the Phi Alpha Fraternity was organized February 29, 1908. The purpose of the Fraternity is to promote the general welfare of its members. It is also the purpose of the Fraternity to develop and maintain high athletic standing. The Fraternity is well represented in all athletics. Good moral and scholastic standing in the school is required for membership.

OMEGA CHI

The Beta Chapter of the Omega Chi Fraternity was installed here in May, 1909. The organization has grown steadily in strength and influence, and is proud to number among its members some of the ablest boys in the school. It is heartily in favor of clean athletics, and as most of the boys are in some of the teams, it exerts its influence in that direction. At present it has some twelve active members in school.

Sororities

At the request of the Sororities, the authorities of the school discontinued them at the close of June, 1919. A system of student clubs takes their place.

CHRISTIAN ASSOCIATIONS

The students maintain two religious organizations—the Y. M. C. A. and the Y. W. C. A. These associations hold regular weekly meetings for devotional purposes, and occasional social gatherings. The meetings are a source of strength and help to the young people. The associations are factors for good in the school, and new students are cordially invited to identify themselves with them. Committees of the two associations meet all trains at the beginning of the terms to assist and direct new students.

Each of the associations has a furnished hall for its meetings.

ALUMNI ASSOCIATION

Indiana has graduated over four thousand teachers, and they constitute a loyal and enthusiastic band of supporters for their Alma Mater. The Alumni Association has been a useful factor, indeed, in the upbuilding of the school. Its services have been numerous and varied, but it is hoped that its influence may be made even more potent. No school can accomplish great things without the aid of a loyal and enthusiastic alumni. Let us not forget the fact that in our union rests the strength that will make us a success in our professional life—that it is the excellence of our work that gives reputation to our Alma Mater, and that her reputation is ours.

The Association holds an annual reunion at Commencement time, including a business meeting and a banquet.

THE LYRIC CLUB

The Lyric Club is a vocal musical organization for women students only. The best part-songs are presented from time to time.

GIRLS' VESTED CHOIR

This organization furnishes music for the Sunday evening Vesper Services.

ORCHESTRA AND BAND

The school maintains an Orchestra of about thirty pieces and a Band of over fifty pieces.

SWING OUT

Swing Out is the day on which the members of the Senior Class first appear in cap and gown, and in honor of this fact Swing Out exercises are held on the campus.

A pageant is given on the campus, in honor of the Seniors, in which from three to four hundred students participate.

Athletics

The Institution's reputation in athletics is so well-known that comment is scarcely necessary here; the Football and Baseball teams have, for years, won a big majority of the season's games, and the Track team has been the champion team among schools of our rank, for years, in Pennsylvania and surrounding states. The Football team was the acknowledged champion Normal football team of the State of Pennsylvania for 1919. The 1917 Baseball team was the acknowledged Scholastic Champion of Western Pennsylvania among the Normal Schools and Preparatory Schools.

Suggestions to Prospective Students

HOW TO ENTER THE SCHOOL

Upon arrival at Indiana, come at once to the Normal, but a short distance southwest of the Pennsylvania depot, and southeast of the B. R. & P. depot. Bring your baggage check to the Normal School Book Room if you have not given it to a representative of the school on the train.

The Registrar's office is just to the left of the north entrance of the main building. All preliminary arrangements will be made here, when the student will go to Leonard Hall, just north of the main building, to be classified. No student is classified who does not show the Principal's receipt for payments required at entrance. After classification, consult with the Dean of Men or the Dean of Women relative to the engagement of a room.

COME EARLY

Success demands that you be here early. Tardiness in the commencement of a term, or irregularity of attendance after the commencement, is a very serious hindrance to success. Be here and ready for work on the very first day and the very first hour of the term, but do not come until the opening day of the semester or term. The residence halls will not be open until registration day.

TIME FOR THOROUGH WORK

It often happens that an ambitious young man or woman, limited in means and desirous of commencing life's active labors as soon as possible, determines to try to do two years' work in one, or that of three in two.

Such a course is scarcely ever advisable. One essential element in the teacher's preparation is time. Solid attainment is never a mushroom growth. Two years' work demands two years in which to do it well; and unless work is well done, the result will prove a source of regret through many years of mistakes which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then, by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your true success that you make thorough preparation.

VISITS

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and usually time thus spent greatly hinders the progress of the student. Make few, if any, visits away from school. Parents of students at Indiana are requested to think this matter through. Not the child's desire, but what is best for him or her, should control the decisions of parents.

OWN YOUR OWN BOOKS

While you will find many books of reference here, it is advisable for you to bring all the books you have that you may make personal and daily use of them. The habit of such use is of incalculable importance, and the school life should

ever minister to the formation of such habits as will lead to success in the after-walks of life. Bring your books with you; place them where you can conveniently use them, and by their use form a habit, the value of which you can never over-estimate.

ELECTRICAL AND HEATING APPLIANCES

Students are not permitted to use or to have alcohol lamps or stoves, electric irons or heaters or cookers, or any preparation for producing fire or heat in their rooms. The school provides facilities for pressing clothes, and a "Candy Kitchen" for whatever cooking is necessary for "spreads."

CONFORM

It is the school's interest and purpose to serve you, but this it can do but poorly unless you conform to the life of the Institution. Make up your mind to get all the good out of the school you can. Come with the purpose of being happy in your work, of getting acquainted and entering heartily and cheerfully into the complete life of the school, making it all yours.

THE SCHOOL'S REPUTATION YOURS

The Indiana Normal proposes to maintain a high standard of excellence, both as to scholarship and as to attainment of skill in teaching.

Our inquiry is, and will remain, not how many we can graduate, but how many, and who, are thoroughly prepared for graduation.

For the sake of those who shall employ our teachers, and for the sake of the teachers themselves, we desire to make our diplomas valuable and preserve to them their value; and we trust that you will appreciate the fact that you must yourself contribute to so desirable an end.

AN OUT-DOOR CLASS

Statement of Expense

	First Semester 18 weeks	Second Semester 18 weeks	Summer School 9 weeks
Total charge for board, heat, light and laundry for boarders preparing to teach.....	\$126.00	\$126.00	\$63.00
Semester Fee.....	10.00	10.00	10.00
Tuition for students preparing to teach.....	Free	Free	Free
Tuition charge for students in Secondary Department.....	36.00	36.00	18.00
Extras —Elocution—one lesson per week			
(private), half hour.....	18.00	18.00	9.00
Music—(piano, voice, violin, or organ).....	27.00	27.00	13.50

NOTE

Boarding students who take the Home Economics Curriculum (see page 65) have to pay an extra tuition fee of \$80.00 per year to cover cost of material.

Students taking the Teachers' Art Curriculum pay \$20.00 extra tuition, per semester.

Students taking the Supervisors' Music Curriculum pay \$60.00 extra tuition, per semester, and also piano, or organ rental.

Students taking the Teachers' Commercial Curriculum pay \$2.00 per semester for use of the machines.

See pp. 52, 65, 56, for expenses of curricula in Music, Domestic Science, Art and Commercial subjects.

Board, room, and laundry is calculated at \$7.00 per week, payable by the semester in advance. For less than a semester, the rate is \$7.50 per week.

BOOKS

The cost of books is an item of expense that cannot be determined because a student can take a longer or shorter program as he may elect, and because he may own part of the books that he will need; but it has been found, by long experience, that the average rental for books amounts to about \$3.00 per semester.

VACATION CHARGES

Students remaining at the school during the Thanksgiving, Christmas or Easter Recesses will be charged the transient rate for board, \$1.70 per day. For lunch only, taken at the school, the charge is \$2.45 per week.

EXTRA ROOM CHARGES

There are rooms on the first and second floors of John Sutton Hall for which a special price is charged. There are also, in various parts of the building, a few suites for which an extra charge is made. In the South Annex an extra charge

of one dollar a week for each occupant is made. These rooms come **en suite**, each occupant has her own bed and wardrobe, and the bedrooms are supplied with lavatories furnishing both hot and cold water. In the North Annex an extra charge of seventy-five cents a week for rooms without running water and one dollar a week for rooms with water is made for each occupant. Girls occupying rooms for which no extra charge is made will pay fifteen cents extra per week if single beds are provided, to meet the extra expense of laundry for bed linen.

At the opening of the year all necessary electric lamps will be furnished free, after which the students will pay for extra lamps.

AMOUNT AND TIME OF PAYMENTS

First Semester

At beginning of the First Semester—

Each student will pay a semester fee of.....	\$ 10.00
All secondary students will pay tuition.....	36.00
All boarding students will pay.....	126.00

At middle of semester, all bills for extra room rent, music, home economics, and extra charges for any courses outside the regular normal courses, etc., are due from all students.

Toward the close of the semester, the book room bills are payable.

Second Semester

At beginning of the Second Semester—

Each student will pay a semester fee of.....	\$ 10.00
All secondary students will pay tuition.....	36.00
All boarding students will pay.....	126.00

At middle of semester, bills covering the same items as for the middle of the first semester fall due.

Summer School

At beginning of the Summer School—

Each student will pay a semester fee of.....	\$ 10.00
All secondary students will pay tuition.....	18.00
All boarding students will pay.....	63.00

HOW TO PAY BILLS

Bank Drafts, Checks, Express and P. O. Orders are accepted. Payments must be made, or satisfactorily provided for, before students are assigned to classes.

Students will not be permitted to enroll for the second semester, or any later semester, until all bills previously incurred have been paid.

Students desiring to leave school before the close of a semester must report to the Principal and settle all unpaid accounts.

Visitors expecting to remain more than three days are requested to make arrangements in advance with the Principal.

Meal tickets for visitors can be obtained in the Book Room or from the Steward's Office.

All bills are payable to the Principal, and all checks should be made payable to John A. H. Keith, Principal.

DEDUCTIONS AND REFUNDS

(Read Carefully)

No deduction is made for absence the first two or the last two weeks of a semester, or for less than two weeks, for any cause whatever.

For absence two consecutive weeks or more on account of the student's personal illness, fifty per cent of the paid-in charges for the time lost is refunded, provided the student's physician in attendance certifies that the illness was of such a character as to render the student unable to attend school. A proper blank for this certificate will be furnished by the school. A similar adjustment will be made in case of a family emergency.

When a student drops out of a strong and popular school, he vacates a place that might have been occupied by another, who would have remained through the semester. The school's expenses for light, heat, etc., are not lessened by the student's dropping out. The teachers who could teach him still remain and draw their salaries. Food for a large school cannot be bought daily on the markets of a small town; consequently, the authorities, calculating on a full school, must contract for food in advance for a semester, and sometimes for a year. For these reasons some of the best conducted schools will make no refunds for any cause, but insist upon a full year's payment in advance, against which no claims will be recognized. Indiana, however, as indicated above, will share the loss with the parent or guardian where the absence is caused by the student's sickness or a real emergency in the student's family. May 31st is the close of the school's fiscal year. After the State Audit is made, usually in July, no refunds for any reason or purpose whatsoever are made.

In cases of light illness, a student will be cared for in our Infirmary at an extra charge of fifty cents per day after the third day. No charge is made for dispensary service. If the attendance of a physician is needed, the student must meet his charge. In case of serious illness, it will be necessary for the student to be removed either to her home or to a private hospital, in which case the student must meet the charges.

The school maintains a small hospital to which persons suffering from contagious diseases are removed. Students occupying this hospital are charged ten dollars a week for general care, not including that of a physician or trained nurse. No deduction from the regular charges of the Institution is made for such students because of time lost from their classes.

The Infirmary of this Institution, with wards for both sexes, private rooms, dispensary, baths, buffet, etc., is one of the best and most complete to be found. It is at all times in charge of a professional nurse of wide experience.

GUESTS

Students and teachers are responsible for their guests. All visitors staying over night in the building must be registered with the Dean of Women or Dean of Men. The building is closed to guests at eleven P. M.

PART III

Curricula Offered at Indiana:

FOR THE PREPARATION OF TEACHERS
FOR THE REGULAR TEACHING POS-
ITIONS IN THE PUBLIC SCHOOL
SERVICE.

THE SECONDARY CURRICULUM

THE MUSIC CURRICULA

THE HOME ECONOMICS CURRICULUM

THE NORMAL ART CURRICULUM

THE COMMERCIAL TEACHERS' TRAIN-
ING CURRICULUM

THE SUMMER SCHOOL

EXTENSION SERVICE

Curricula of the Pennsylvania State Normal Schools for the Preparation of Teachers for the Public Schools

REQUIREMENTS FOR ADMISSION

1. Graduates of approved secondary schools, who can present evidence of having completed fifteen units of high school work, will be admitted as regular students to the state normal schools.

2. A unit shall consist of not less than thirty-six weeks of work requiring at least four periods per week of not less than forty minutes per period or its time equivalent. (Subjects not requiring out-of-class preparation or study shall require double time in estimating the units.)

3. Credentials of all students entering the state normal schools shall be received and evaluated by the normal schools.

4. Adequate knowledge of the subject matter in the elementary subjects will be presupposed on the part of all students admitted to the normal schools.

5. Required units for admission:

English.....	3 units
Mathematics.....	1 unit
Science.....	1 unit
Social Studies.....	1 unit, after Sept. 1923, 2 units
Elective.....	9 units, after Sept. 1923, 8 units
Total.....	15 units

6. The holders of permanent and professional certificates will be given one unit credit toward admission as regular students to the normal schools for each subject of high school grade written on the certificate.

7. Advanced credit will be given for equivalent courses in approved teacher training institutions, but no student may obtain a normal school certificate without a minimum residence of one year.

8. For the present the normal schools shall, when necessary, conduct a secondary department of first class high school grade for those students who do not have similar high school facilities available in their home communities.

NORMAL SCHOOL CERTIFICATE FOR TEACHERS IN SERVICE

The Board of Normal School Principals have adopted the following regulations and the same have been approved by the State Council of Education.

The following conditions apply only to those persons who have taught in Pennsylvania public schools prior to July 1, 1922.

1. The fifteen units of high school work required for entrance to the State Normal Schools may be earned in approved high schools, summer schools, extension classes, correspondence study, and tutoring under approved conditions.

Credits for entrance may also be secured by teaching experience in Pennsylvania public schools at the rate of three standard high school units for each year of successful teaching.

2. Whenever a teacher has earned the credits necessary for entrance to a State Normal School in any of the above ways or by combination of them, four semester hours of credit on a regular State Normal School curriculum may be granted for each year of teaching experience in Pennsylvania with a rating of "middle or better" (on the State Teacher's Rating Score Card) subsequent to meeting the entrance conditions up to a maximum of thirty-two semester hours, provided, however, that all credits thus given shall be conditional until the teacher shall have proved his ability to do the work of the State Normal School curriculum in a creditable manner.

3. In all cases in which Normal School credit is given for teaching experience, the work remaining to be done shall be selected by the authorities of the Normal School to secure the best development of the student in teaching power.

4. A minimum of one-half year of resident study shall be required of all candidates for graduation who are credited for teaching experience as outlined above.

5. Entrance and Normal School credits based on teaching experience as outlined above will not be granted after September 1, 1927.

To facilitate the evaluation of credits for teachers in service, the Indiana State Normal School will collect, with the co-operation of those teachers who seek its certificate, all necessary data. Those who desire to avail themselves should correspond directly with the Principal of the School and should indicate which of the following blanks they need for their particular cases:

- A. High School Credit blank.
- B. Teacher's Rating Score Card.
- C. Approved Training Certificate.

These blanks will be sent out on application to any teacher now in service in the public schools of the Commonwealth. When properly filled out, they should be returned to the Indiana State Normal School. These blanks and the statement of the credit allowed will be kept in the office of the School as a part of the student's permanent record, and the student will be informed of his exact status.

THE FOUR CURRICULA

GROUP I—Kindergarten-Primary—for teachers of Kindergarten and Grades 1, 2 and 3—2 years in length.

GROUP II—Intermediate Grades—for teachers of Grades 4, 5 and 6—2 years in length.

GROUP III—Grammar Grades and Junior High School—for teachers of Grades 7, 8 and 9—3 years in length.

GROUP IV—Rural—for teachers of rural schools—2 years in length.

STUDENTS MUST SELECT ONE OF FOUR CURRICULA

The four curricula that are offered to students have been organized upon the principle that teaching in the elementary schools can be classified into sufficiently definite types to require specialization. Each curriculum prepares for a specific type of teaching position.

The work of the first semester is the same for all students. A large purpose of the work of the first semester is to acquaint students with the requirements for successful teaching in the different grades so that they may be able to decide intelligently in what grade or grades they prefer to teach. The course entitled "Introduction to Teaching" which includes observation and participation in the training school is especially designed to aid students in a wise selection of a curriculum.

At the end of the first semester students are asked to select one of the four curricula for the purpose of specializing in a specific field of teaching. The work of each curriculum must be completed in its entirety. Students may be granted the privilege of changing from one curriculum to another only on condition that the prescribed courses of any curriculum so selected must be completed before a certificate of graduation is granted.

ELECTIVES

All electives are taught from the professional point of view and are of college grade of work.

All electives are chosen with special reference to the group in which the teacher is preparing to teach and with the approval of the principal of the school.

Normal School Course of Study

ADOPTED BY BOARD OF NORMAL SCHOOL PRINCIPALS MAY 10, 1921
AND REVISED APRIL 28, 1922

Group I (Kindergarten and Grades 1, 2, 3)

FIRST SEMESTER

Elective.....	3	3
	<hr/>	<hr/>
	24	22

Total of 82 semester hours—80 required for graduation.

The Secondary Curriculum

The professional work of all the Pennsylvania State Normal Schools has been placed, as the preceding curricula show, on a four-year high school graduate basis. For the benefit of students who desire to prepare for teaching and whose home school facilities do not include a four-year high school curriculum the Normal Preparatory Curriculum, outlined below, is offered. Credit on this curriculum will be given for equivalent work done in the home high school of the individual student. **No student who has not completed the work of his or her home school can be admitted to the Secondary Curriculum,** except in the case of over-aged pupils who have been out of school for some time and who desire to resume their studies. These exceptional cases must be arranged for directly with the Principal of the Normal School.

Exceptional students may be able to complete this curriculum in less than four years' time.

Secondary Curriculum

(NOTE—The figures following each course indicate the number of fifty minute hours per week devoted to class work. Where laboratory work is given, two hours of such work is equivalent to one hour of prepared recitation work.)

CORE SUBJECTS	ELECTIVES					
First Year: English I.....5 Algebra.....5 Citizenship.....2 ¹ / ₂ European History to 1750.....2 ¹ / ₂ Health Education..2	General Science	Latin I	Commer- cial Subjects	Domestic Science		
Second Year: English II.....5 European History since 1750.....5 Plane Geometry or Biology.....5 Health Education..2		Latin II	Commer- cial Subjects	Domestic Science		
Third Year: English III.....5 American History..5 Chemistry, or Solid Geom. $\frac{1}{2}$ and Adv. Algebra $\frac{1}{2}$..5 Health Education..2		Latin III or French I	Commer- cial Subjects	Domestic Science	Music	Art
Fourth Year: English IV.....5 Problems of Democracy.....5 Science (if not pre- viously taken) or Elective.....5 Health Education..2	Physics	Latin IV or French II	Commer- cial Subjects	Domestic Science	Music	Art

The preceding arrangement makes it possible for a student to get four years of Latin, or two years of Latin and two years of French. There is also an option by which a student may get a third year of mathematics.

The tuition of students in the Secondary Curriculum is at the rate of \$72.00 for the year of two semesters.

The Department of Music

The Department of Music is organized to meet the various needs of the student body along musical lines. Its work is divided under four general heads, viz.:

1. The teaching of the subject matter of Public School Music to the regular normal students.
2. The presentation of a three-year course for those desiring to become supervisors and special teachers of music in the public schools.
3. Private instruction in piano, organ, voice, violin, and all string and wind instruments of the symphonic orchestra and military band.
4. The organization and maintenance of educational recreational activities such as choral clubs, glee clubs, bands, orchestras, etc.

For detailed information concerning this work, those interested should address:

ROBERT A. BARTHOLOMEW,
 Director of the Department of Music,
 STATE NORMAL SCHOOL,
 Indiana, Pa.

CURRICULUM FOR SUPERVISORS OF MUSIC

This curriculum, which requires graduation from a four-year high school, or its equivalent, for entrance, and which is three years in length, prepares specifically for the teaching and supervision of music in the elementary and secondary schools of the Commonwealth. Those who complete this curriculum receive, without examination, a special temporary State Certificate as Supervisors of Public School Music. After three years of successful teaching, the Permanent State Certificate in Music is awarded. The course is given by an adequate faculty of experienced teachers, each skilled in particular branches. The outline of the curriculum follows:

FIRST YEAR

PRIVATE INSTRUCTION

Many of the students who attend the Indiana State Normal School desire to begin or continue work in Voice, Piano, Organ, Violin or Violoncello. For the accommodation of these students, opportunity is made for private instruction with well qualified teachers. These lessons are given at the very reasonable rate of \$1.50 per lesson.

Residents of Indiana and vicinity are privileged to take private instruction in music at the above rates. Such persons must pay the semester fee of \$10.00 at enrollment. This fee is then credited on their charge for music lessons. Boarding student privileges—attendance at lectures, concerts, athletic games, and the Saturday evening dances—are extended to those special music students who take at least two music lessons per week.

No deduction will be made for lessons lost in music except in cases of protracted illness.

CLASS INSTRUCTION

Class instruction may be had on any band instrument. These lessons include one fifty-minute period per week in the special class for the instrument, together with two ensemble rehearsals per week with the military band. This work is given by an experienced band director and is productive of immediate results.

Wind instruments, with the exception of wood-winds, are rented to the student at the nominal sum of \$10.00 per semester. The cost of the lessons is \$12.00 per semester or \$24.00 per year.

RENTAL CHARGES

Piano Rental—One fifty-minute period per day, \$6.00 per semester.

Organ Rental—Two fifty-minute periods per week, \$6.00 per semester.

Two Manual Practice Organ—One fifty-minute period per day, \$10.00 per semester.

NOTE—For statement of boarding expenses, etc., see page 40.

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

REQUIREMENTS FOR ADMISSION TO THE SUPERVISOR'S CURRICULUM

1. A general academic education, representing a four-year high school course or its equivalent, including the ability to speak, write and spell the English language acceptably.
2. The possession of an acceptable singing voice and of a fairly quick sense of tone and rhythm.
3. Ability to sing at sight hymn and folk tunes with a fair degree of accuracy and facility.
4. *Ability to play the piano or some orchestral instrument, representing two years study.

*The student may enter with a condition in piano.

GRADUATION REQUIREMENTS

Only those will be recommended for graduation who have the ability to play at sight piano accompaniments to song material found in standard school texts; also a sufficient knowledge of the child voice, adolescent voice, and adult voice to deal intelligently with the vocal problems found in the grades and in the high school; and the ability to present such song material in an artistic manner.

CREDENTIALS

Those who graduate receive a certificate to teach and supervise music in any public school in Pennsylvania for a period of three years. At the end of three years of successful teaching experience in Pennsylvania, the certificate is made permanent.

FEES FOR INSTRUCTION

The fee of \$60.00 per semester covers the cost of instruction in all courses outlined. Additional private lessons are charged for at the rate of \$1.50 for each half hour lesson.

ELECTIVES

Any student able to pass the piano requirement may substitute the study of the violin, organ, or any band or orchestral instrument without being required to pay an additional fee. Class instruction in all band instruments is offered at the rate of \$12.00 per semester.

Department of Commerce

The Commercial Teacher Training Department

There is a great and growing demand for teachers of commercial subjects in the high schools. This is due to the rapid increase in the number of high school students and to the great demand made upon the high schools for preparation for business. Very largely on account of this shortage of well-qualified commercial teachers, only a small part of the high schools of the great Commonwealth of Pennsylvania have, at the present time, what could be rightly called commercial departments. This opens a wide field of opportunity for those who have the ability to qualify for such an important position. Great numbers of commercial teachers are offered high positions with the large commercial enterprises yearly, and this also has the effect of lessening the number of commercial teachers available.

The high school must be depended upon to meet the demand of the business world by preparing large numbers of well-qualified business assistants yearly. Such assistants must be well-qualified before applying for a worth-while position. They must be taught by efficient teachers. The preparation of such teachers is the business of the State, and the State is willing and ready to do its part. No State in the Union has made greater strides in this direction recently than has Pennsylvania. A most wonderful opportunity, both professional and financial, awaits those who take advantage of the preparation offered in our Commercial Teacher Training Department.

It is not enough for a commercial teacher to have a mere smattering of the commercial subjects. Commercial teachers are now holding a very unique and high position in the business life of the community, and must be thoroughly prepared to teach, in an up-to-date manner, all of the subjects demanded by a wide-awake and progressive business public. What is needed more and more every day and in every community, is a closer cooperation between the business enterprises and the local commercial department. This is especially true in a great commercial and industrial commonwealth like Pennsylvania.

The high schools are now realizing that such education is a part of public education, and a new type of teacher is needed to meet the needs. It is necessary for commercial teachers to know their business better than ever before in order to measure up to the needs of the modern demand. For this increased efficiency and cooperation, the commercial teacher is highly paid, and becomes a great asset to the business and social environment.

The profession is open to both young men and young women. Many young men use this training as direct preparation for the very highly-paid profession of public accounting and auditing. The experience gained in the teaching of commercial subjects, and the contact acquired with the practical business world, are the qualifications required for this very remunerative and honored profession. Commercial teaching calls for young men and women of initiative and ability, and there is no course open to such young men and women that offers greater certainty of employment or greater opportunities for advancement than teaching in the commercial field.

For those who desire to become well-qualified teachers of commercial subjects, we offer an exceptionally thorough course of study. Applicants for this

STATE NORMAL SCHOOL, INDIANA, PENNSYLVANIA

course must be graduates of an approved high school or its equivalent, with at least fifteen units of credit. Previous commercial training is not necessary for entrance to our Department. Worthy graduates from this Department are awarded, upon graduation, complete certification for teaching in the best high schools.

Indiana Normal has been chosen by the State Department of Public Instruction, and designated especially for the training of commercial teachers. This certainly vouches for the very high standards and efficiency of our Department and especially recommends our Commercial Teacher Training Department to those interested in such work.

THE COMMERCIAL LIBRARY

Besides having access to the large Normal Library, with its thousands of volumes, commercial students have the advantage of our Reference Library for the Commercial Teacher Training Department, composed of many of the best commercial publications, etc. All commercial students are encouraged to make frequent use of this opportunity, and thus become acquainted with the best business literature. Among other interesting publications are to be found a number of very useful business magazines, bulletins, maps, pamphlets, charts, graphs and reports from the various industrial and commercial enterprises of the country. By keeping in correspondence with the leading concerns we are enabled to keep our students informed concerning the various activities of big business. Such contact broadens training.

EQUIPMENT

Adding and calculating machines, multigraphs, mimeographs, addressographs, dictaphones, files and cabinets, and other up-to-date office equipment, give the students a practical knowledge of the time savers and efficiency devices of modern business, and their uses are taught and mastered in this Department. Our Department is well equipped throughout with a full supply of all modern office machines, etc. Our students become very proficient in the manipulation of such machines before graduation.

LECTURES, OBSERVATION TRIPS, ETC.

At frequent intervals throughout the year, the students of the Department have the opportunity of hearing a number of interesting and instructive lectures given by the leading business and professional men of the community. Frequent observation trips are made in order to study the industrial activities of the community as they actually are. Lectures by outside men of affairs are occasionally enjoyed. Through the courtesy of the officials of some of the leading industrial concerns in the country, the Department is enabled to keep in touch with the many new ideas in modern business. The various financial and economic bulletins that are received regularly from America's largest banking houses in New York and elsewhere, afford the commercial students an acquaintance with the big things that are transpiring daily in Wall Street and other financial centers. Everything possible is done to bring the business atmosphere into our Department.

COMMERCIAL EXHIBITS

We have in our Commercial Geography Cabinets a large display of materials collected from a wide variety of sources, to illustrate the processes of manufacture and production of the leading commodities. These specimens are not only for observation, but are handled, examined and studied practically by the students. We are adding to this large collection continually.

THE STUDENT SENATE

A Student Senate is organized for the purpose of cooperating with the Director and teachers for the welfare of the Department of Commerce in general and special cases in particular as they arise. The members of the Senate are chosen by ballot as representatives of the various classes in the Department. The Senate is the connecting link between the commercial faculty and the student body. Meetings are called at the discretion of the chairman—the Director of the Department of Commerce.

THE COMMERCIAL CLUB

There is organized, in connection with the Department of Commerce, a Commercial Club. Frequent opportunity is afforded for public discussion and debate on current popular topics. All of the officers of the Commercial Club are elected from the members of the Department of Commerce. The work is supervised by a member of the Commercial Faculty.

THE EAGLE CLUB

This Club is composed of those students who have attained very high proficiency in pen work, and who have been awarded the flourished Eagle of High Honor by the Director.

THE SPEED CLUB

This Club is composed of those students who attain a given high record of speed in shorthand, typewriting, rapid calculations, calculating machines, etc. It is our aim in all of these subjects to develop absolute accuracy at very high speed.

PURPOSES OF THE CLUBS

The purpose of the clubs is two-fold, namely, to award distinction to those who attain exceptional skill, and to develop the social and educational life of every member of the Department, by instilling within them a spirit of inspiration and initiative. A spirit of leadership should be developed early in life. Our method of work is conducive to that end.

THE INTER-COUNTY CONTESTS

One of the most interesting annual events is the Inter-County Contest in Commercial Subjects, which is held at Indiana Normal in May. Each county so desiring may hold a preliminary contest in April, at which time representatives for the Final Contest are chosen. These contests create much beneficial friendly rivalry and help to arouse much interest among the schools in the commercial work. Those interested should write for an outline of the plan.

PRIZES AND AWARDS

Besides the flourished Eagle of High Honor, numerous other awards are offered for skill in pen work. All of our graduates carry out with them at least two teachers' diplomas awarded by the penmanship publishers, such as Zaner, Palmer, etc. Gold medals, silver medals, certificates, etc., are awarded all students who attain high skill in the operation of the typewriter. Various prizes are offered in other subjects. During the past year alone, over two hundred and fifty such awards were won by our students.

PRACTICE DEPARTMENT

Our Business Practice Department is a complete business community in itself, and includes not only the procedure but also the actual atmosphere and environment of modern business. It is equipped for efficient and up-to-date work. Much practical business experience may be procured in our Practice Department.

PRACTICAL BUSINESS EXPERIENCE

A minimum of three months supervised business experience or six months unsupervised business experience, will be required as a part of the Commercial Teacher Training Curriculum. Such experience does not necessarily have to be procured during consecutive months. It may be procured previous to or during the course. The Department assists students in procuring suitable positions where this practical experience may be acquired. The purpose of this practical training is evident. Such experience will prove to be very valuable to young teachers when they face the problems of their respective communities where they shall teach. Credit for the required amount of such business experience can be acquired in our own business offices or elsewhere. Credit is given for all actual business experience previously procured and also for that acquired in our own Business Practice Department.

POST-GRADUATE CO-OPERATION

After graduates have gotten out into the actual teaching field, they are encouraged to keep in close touch with the business life of the communities in which they are teaching, in order that they may better formulate the policies of their respective departments and be of more direct service in their respective fields. The commercial problems of no two communities are identical. It is the desire of our Department to train young teachers to sense the situation and govern themselves accordingly. It is also desired that a very close cooperation be experienced between graduates who are out teaching and the Commercial Teacher Training Department. In this way, greater success may be experienced by our graduates, and the actual, vital problems of the commercial teaching field and the commercial life of the State in general may be considered and discussed from a practical standpoint with and by the students still in training in the Department. It is our desire to make this Department a clearing house of commercial ideas for the commercial teachers of the State.

THE TEACHERS' BUREAU

A very efficient Teachers' Bureau is conducted in connection with the Department for the purpose of obtaining suitable teaching positions for our graduates, and also for promoting the interests of those of our number who have been teaching for a year or more and who have made good records. No charge whatever is made for the services rendered by this Bureau. Our idea is to find good teachers for good schools and good schools for good teachers.

PRACTICAL TEACHING

Each student in training in our Department procures more than the State requirement in hours of actual practical teaching and professional work. With this in view, a Four Year High School of Commerce is conducted in connection with the Department. The classes in this School of Business are taught by the commercial teachers in training, and are supervised and criticized by regular teachers of the Commercial Faculty. Plans for the lessons are written up by each student teacher and are criticized by critic teachers. Everything is done to afford those in training as much actual teaching experience as possible before graduation. The arrangement of courses and methods of teaching in the High School of Commerce are good models for other commercial departments in the high schools of the State and are in complete agreement with the New State Syllabus.

ADVANCED STANDING

Any applicant contemplating making application for entrance to our Commercial Teacher Training Department, who has had the equivalent elsewhere in a recognized school of college grade of the work outlined in the First Year of our curriculum, may make application for advanced standing. Such application should be made as soon as convenient to the Director of the Department of Commerce of the Normal. No examinations of any kind are required of approved high school graduates for entrance to the First Year of the curriculum. No previous commercial training is required. Graduates from any of the high school courses may enter our Department with equal standing.

SUMMER SCHOOL

We conduct a complete summer school of commercial theory and methods for the benefit of those who have been teaching and who wish to become further certified and acquire new ideas and methods. It is possible under certain circumstances for those who drop out before graduation to complete the work through summer sessions. The same credit is given for work done in either summer or winter sessions. Those interested in the summer school should write for the Summer School Bulletin.

CORRESPONDENCE COURSES

Under certain conditions and where the situation justifies it, some of the commercial subjects may be pursued for regular credit through correspondence. This arrangement applies particularly to teachers in service who are having credits evaluated for summer school classification, advanced standing, etc. Applicants for this work should write the Director, outlining the situation fully in order to ascertain whether, under the circumstances, arrangements can be made to cover the case in question.

METHODS OF CERTIFICATION

There are two ways in which applicants may become fully certified to teach commercial subjects in the high schools of the State, as follows:

1. The Regular Method:

By this method students spend three years in the Department. This method is highly advisable and avoids delay in working forward rapidly in the profession and meets the State requirements for the Normal Certificate. Those who teach successfully on the Normal Certificate are automatically awarded the Normal Diploma—the goal of every ambitious teacher.

2. The Cumulative Method:

By this method students make freer use of the summer sessions. It is designed primarily for those who are already out in the field teaching. According to this method, any commercial teacher or any other teacher may be given advanced credit for previous study and experience, and may classify accordingly in the Department. Such an applicant may then work off all of the remainder of the curriculum through either regular semester sessions, through summer sessions, or through a combination of both. Those who complete the course by this method are placed on exactly the same standing as any other regular graduate of the Commercial Teacher Training Department. No matter which method is pursued, when the prescribed work is completed all alumni rank alike.

The above arrangements afford abundant opportunity for those interested to procure additional training in both the theory and up-to-date methods of commercial education, to acquire the highest certification, and to work up in the profession to the higher and more remunerative positions in the large high schools. It also affords wide-awake grade teachers and others opportunity to improve their status and enter the field of high school teaching without needless delay. Some of the best commercial students we have had in the Department are those who have been previously trained as grade teachers, and who, entering upon commercial teaching, bring with them an abundance of rich experience.

The Commercial Teachers' Training Curriculum

FIRST SEMESTER

	Rec. Per Week	Semester Hours
Business English.....	3	3
Junior Business Training and Elementary Bookkeeping...	5	5
Rapid Calculating and Business Writing ($\frac{1}{2}$ hour each)...	6	3
Shorthand (Gregg), Theory.....	5	5
Typewriting, Theory.....	6	3
Physical Education.....	3	1

SECOND SEMESTER

Business Correspondence.....	3	3
Intermediate Bookkeeping (Theory and Methods).....	5	5
Rapid Calculating and Business Writing (Theory and Methods).....	6	3
Shorthand (Gregg) (Theory and Methods).....	5	5
Typewriting (Theory and Practice with Methods).....	6	3
Physical Education.....	3	1

THIRD SEMESTER

Educational Psychology.....	3	3
Commercial Education.....	3	3
Practice Teaching and Methods.....	5	5
Physical Education.....	3	1

Upon completion of this curriculum, the Normal Certificate is awarded. Those who teach successfully on the Normal Certificate are awarded the Normal Diploma which is good for life. The completion therefore affords the highest certification, a wide range and field of commercial teaching, an opportunity for great responsibility in the handling of commercial subjects and a high salary in connection with a large and comprehensive commercial department.

Expense:—All students in the Teachers Commercial Curriculum pay \$2.00 per semester for the use of machines. For other expenses, see page 40.

APPLICATION FOR ENROLLMENT

We accept only a definite, limited number of the best qualified applicants each year. When our quota is filled, we place the names of all additional qualified applicants on our "waiting list" and notify them in turn in case a vacancy occurs. We reserve the right to reject any applicant whose qualifications do not measure up to our standards for either entrance to our Department or for a place on our "waiting list". Students who desire to make application for entering the Commercial Teacher Training Department or any of the courses of the Department of Commerce should get their applications in early, in order to insure a reservation.

For further and detailed information concerning the work of the Department of Commerce, write

G. G. HILL, Director
Department of Commerce
STATE NORMAL SCHOOL
Indiana, Pa.

The High School of Commerce

For the benefit and convenience of those who desire a four-year high school course, together with a through course in commercial and stenographic subjects, we have organized the High School of Commerce. For entrance to this Department all applicants must submit certificates to the effect that they have completed the work of the eighth grade or its equivalent. No student will be accepted for this work who has not completed the educational facilities offered by his or her local school. As this high school department is considered a part of the public school facilities of Indiana, students will be accepted who are enrolled in the Indiana High School, by special arrangements with the Principal.

In this Department, the morning hours are devoted to the regular high school academic subjects. The afternoon hours are devoted to commercial subjects.

General business training is pursued by all students in the course during the First and Second Years. At the beginning of the Third Year students must decide whether they desire to pursue the Stenographic and Secretarial Course or the Bookkeeping and Business Course. Both courses cannot be taken simultaneously. It is possible, however, to be graduated from the Bookkeeping and Business Course and to follow this with the Stenographic and Secretarial Course.

If, at the end of the Third Year, students who are in good standing in the work previously covered, desire to substitute Salesmanship, Advertising, Merchandising and Store Practice for the equivalent amount of commercial credit for the Fourth Year, such arrangement will be permitted as outlined in the curriculum.

There is very little preparation required for the commercial subjects included in the courses of the High School of Commerce outside of the regular afternoon class periods.

No vocational work at all is conducted during the morning.

Commercial High School Curriculum

(Morning Hours Omitted)

Upon completion of this course students are prepared for either college or for a business position.

An employment bureau is conducted in connection with the Department of Commerce, for the purpose of assisting worthy graduates in procuring suitable positions.

For further detailed information, call on or write, G. G. Hill, Director, Department of Commerce, State Normal School, Indiana, Pa.

Three Year Course in Home Economics

The Home Economics Department offers a strong curriculum for the training of teachers of the household arts in the elementary schools and high school. No work other than that from a professional standpoint is offered, the curriculum being devoted exclusively to specific preparation for teaching.

Graduation from a four-year high school with at least fifteen units is required for admission. Those with less preparation will have to make up the deficiency before beginning the Home Economics work.

Upon the completion of this course the Normal Certificate is issued which, after two years of successful teaching, becomes a Life Diploma.

DESCRIPTION OF SEPARATE COURSES IN THE CURRICULUM

Clothing I and II:

This course includes practice in the following: Care and use of sewing machines; making of fundamental stitches; use of commercial and drafted patterns; hand and machine sewing applied to undergarments and the making of a middy blouse; darning, patching and simple embroidery. Students provide their own materials subject to the approval of the instructor.

Cookery I-II:

This is a beginning course in cookery intended to acquaint the student with fundamental processes. The meal is the unit of work, and the lessons center about the planning, preparation, and serving of well chosen, attractive home meals.

Food Products:

A course designed to give the student a broad and exact knowledge of the production, manufacture, and distribution of food products together with an elementary knowledge of their nutritive value. Excursions, books of reference, government and state bulletins are freely used.

General and Household Chemistry:

This course presents the elementary facts and principles involved in chemical reactions with their application as far as possible in the fields of industrial and household arts. The more common and useful substances are studied and many of them are prepared in the laboratory.

Organic and Food Chemistry:

This course is a theoretical consideration of the composition, structure, and characteristic reactions of organic compounds of the aliphatic and aromatic series, and includes a study of the chemical nature and reactions of carbohydrates, fats, and proteins.

Prerequisite: General and Household Chemistry.

Art I and II
Composition I and II
English Fundamentals
Literature I
Health Education

} For descriptions of these courses see general descriptions of the same elsewhere in the catalog.

SECOND YEAR

Cookery III and IV:

This course falls into several rather distinct divisions—a detailed study of canning and preserving; practice in some of the more elaborate forms of cookery; more formal table service with a more extended study of costs and considerable practice in serving larger groups of people; a review of elementary cookery and practice in giving demonstrations.

Clothing III and IV:

These courses include principles of dressmaking applied to silk and woolen materials; the making of a tailored blouse, wool skirt and silk dress; study of machine attachments; subject matter on the care and repair of clothing; the clothing budget; the garment making industry.

Household Physics:

The purpose of this course is to teach the use and care of the electrical, mechanical, and heating equipment of modern homes and institutions. A knowledge of mechanics and heat is applied to the solution of concrete problems connected with cooking, heating, and ventilation in the home.

MICROBIOLOGY:

This course includes a study of the fundamental principles and general laboratory technique. The bacteriological problems of personal and public hygiene and sanitation are included, and attention is given to bacteria in relation to milk, water analysis, disease-producing yeasts, molds, and bacteria in their relation to cooking, and canning.

PHYSIOLOGICAL CHEMISTRY:

This course consists of a study of the chemistry of food and nutrition and presents the essential chemical facts pertaining to life processes. The chemical changes involved in the digestion and assimilation of each separate foodstuff are studied.

Prerequisite:

Organic and Food Chemistry.

Physiology, Hygiene and Sanitation:

This course deals with personal hygiene and sanitation, the maintenance of high standards of health for the student, and teacher, proper care and ventilation of school rooms, home and community hygiene.

Art III. See description of art courses.

Observation and Methods of Teaching Home Economics:

A professional course dealing with the problems of Home Economics in the Public Schools. The selection, purchase, cost and care of equipment, methods of teaching, presentation of lessons, relation of the special teacher to the community are some of the problems discussed. A portion of the work consists of the observation and discussion of demonstration lessons in Home Economics in the grades and high school.

Literature II and III
Introduction to Teaching
Psychology
Health Education

} See description of these elsewhere in
} catalog.

THIRD YEAR

Nutrition I:

An elementary course in human nutrition dealing with the fundamentals of dietetics for the individual and family. The professional aspect is constantly kept in the mind of the student. Methods of presenting the subject are discussed.

Nutrition II:

In this course the subject of nutrition is taken up from a more advanced and scientific standpoint. The protein, energy, mineral, and vitamin requirements are studied in detail, food values in relation to costs are emphasized, and the economic use of food from all standpoints is carefully considered.

Prerequisite: Physiological Chemistry.

Home Nursing:

The aim of this course is to give a practical knowledge of the care of the minor illnesses in the home which do not require professional care. What to do in the case of accidents and emergencies which may occur in the school room and elsewhere is taught. Both modern theory and practical work are given.

Chemistry of Textiles:

This course includes a microscopic examination and identification of fibers and substitute materials, the chemical examination of fibers, the determination of the content of cloth, and the detection of adulteration.

Prerequisite: General and Household Chemistry.

Educational Sociology:

See description of course under Education Courses.

Home and Social Economics:

The object of this course is the development of practical ideals of living as related to the family group. The family organization is studied and traced through history from primitive times up to the present. The modern family, current social movements, and child welfare are studied systematically. Woman as a worker in the outside world, and the effect of her entrance into industry upon the family life are topics forming the basis of extended reading and class discussion.

Household Management:

A course applying scientific and economic principles to the problems of the modern housewife. Some of the topics discussed are—income, the budget and its apportionment, house decoration and appliances, cleaning, repairs, household service, apportionment of time, and home life.

Practice House Residence. Practical work in a well furnished practice cottage gives students insight into the actual organization and administration of the home. Budget making and account keeping are based on this practical work. Guests are frequently entertained and the social life of the home is emphasized.

IV. PRACTICE TEACHING

Students are required to do a definite amount of practice teaching in Home Economics under supervision. This is closely correlated with the work in Observation and Methods of the previous year.

Clothing V (Millinery):

Principles of design are emphasized. The course includes pattern cutting for frames, coverings, trimmings and linings; making of wire and buckram frames from original designs and covering same.

Clothing VI:

Sewing for infants and children. A baby's complete layette is made. Fine sewing and handwork are emphasized in this course.

Experimental Cookery:

A course in laboratory study for advanced students to enable them to gain information for practical use in food preparation. A qualitative and quantitative study of recipes is made, of various methods used in the combination of food materials, and of cookery apparatus.

Large Quantity Cookery:

A study of the principles of quantity cookery as applied to institutions, tea rooms, catering, and the administration of school lunches is given. Opportunity for observation in the kitchens of the institution and for practice in the conduct of the lunch rooms of the training school and the public schools of the city is given.

EXPENSES

For the expenses of a student in the Home Economics Department, see page 40.

Normal Art Curriculum

The Normal Art Curriculum offered by the Indiana State Normal School is based on graduation from a four-year high school and covers a period of three years. It purposes to prepare teachers for direct teaching of drawing and art and for the supervision of drawing in graded and high schools.

Those completing the course will have a thorough training in the several branches of the Fine Arts, such as drawing from life, still life and casts, painting in several mediums, crayons and pen-and-ink sketching, which embraces a course in perspective and nature sketching and design, both conventional and commercial. The course also includes many of the Applied and Industrial Arts, giving practical work in weaving, construction work, clay modeling, basketry, textile decoration, jewelry, leather and metal work. A comprehensive course in Art History and Art Appreciation is required, including Painting, Sculpture and Architecture.

Public school methods in drawing, including blackboard work, are taught, and practical experience is gained in the Training Department of the Normal School during the senior year when each student is required to teach.

Graduates of the Normal Art Curriculum receive a teacher's certificate valid for three years. After three years of successful teaching, the certificate is made permanent.

EXPENSES

All students in the Normal Art Curriculum pay \$20.00 each semester as tuition. For other expenses, see page 40.

Detail of Courses in Normal Art

Normal Art 41.1—Charcoal.

Normal Art group, 1st semester. 6 periods, 6 hours' credit.

With charcoal as a medium, fundamental principles of drawing, as light and shade and perspective, are taught. Studies are made from still life and from casts representing historic ornament, animals, and the human figure and parts thereof.

Normal Art 41.2—Pencil.

Normal Art group, 1st semester. 6 periods, 6 hours' credit.

A study is made of the accented line by drawings of still life and groups of common objects. Articles of furniture are drawn. Flower drawing is part of this course.

Normal Art 42.1—Watercolor.

Normal Art group, 2nd semester. 6 periods, 6 hours' credit.

The work of this course begins with the flat wash. Twelve copies of landscape are made with special attention to skies, clouds, foregrounds, and trees. The relative merits of the wet method and the dry method are demonstrated. Flower drawing is taught by the "build-up" method. Two certificate sheets of still life are made.

Normal Art 42.2—Pen and Ink.

Normal Art group, 2nd semester. 6 periods, 6 hours' credit.

An important aim of this course is to teach the value of line. To this end drawings of a wide range of subjects are made, including geometric solids, hats, reproductions of headings and tail pieces, book plates, and a sheet of common symbols.

This course is intended to develop accurate observation of nature and natural objects both in minute details and in general effect. Plants and animals are subjects of study and representation.

Normal Art 43.2—Pencil sketching.

Normal Art group, 3rd semester. 2 periods, 1 hour's credit.

This course may be described as pencil painting. Copies of twelve plates are made. Ten original sketches of trees and ten of houses are required.

Normal Art 43.3—Bookbinding and Construction.

Normal Art group, 3rd semester. 2 periods, 1 hour's credit.

The mechanical details of bookbinding and construction and elementary principles of structural design are studied and practiced in this course.

Normal Art 43.4—Design.

Normal Art group, 3rd semester. 5 periods, 5 hours' credit.

This is a course in the theory and practice of design. Among the topics studied are the theory of color, the value of line, mass with reference to balance, harmony, and rhythm, historic ornament, and modern design. A portfolio of examples is made. The work includes monogram, stencil, block printing, poster making, advertising, and costume design.

Normal Art 43.5—Oils.

Normal Art group, 3rd semester. 5 periods, 5 hours' credit.

Studies are made of still life and landscape in oils. Three or four certificate sheets and twenty poche art sketches are required.

Normal Art 44.1—Modeling.

Normal Art group, 4th semester. 4 periods, 2 hours' credit.

Historic ornament in modeling, as the rosette and scanthus, is studied. Modeling is practiced both in round and in relief, and casts are made of the human hand, foot, and face.

Normal Art 44.2—Mechanical and Machine Drawing.

Normal Art group, 4th semester. 6 periods, 6 hours' credit.

The subjects treated include lettering, lines and cross sections, theory and practice of projection and development, screw threads, copies of blue prints, blue prints from objects, house construction from blue prints, and an original design of a bungalow.

Normal Art 44.3—Efficiency in Art Teaching.

Normal Art group, 4th semester. 3 periods, 3 hours' credit.

In addition to the fundamental matters that condition efficiency in all teaching, this course treats the problems peculiar to the art supervisor. The relationship within the school system of the work in art is considered. The ordering, care, and distribution of supplies is treated in connection with a consideration of the comparative merits of the firms that handle artists' supplies. The time schedule for art is studied. Special attention is given to the problem of instructing the teachers who work under the supervisor.

Normal Art 45.1—Student Teaching of Art.

Normal Art group, 5th semester. 10 periods, 10 hours' credit.

Two consecutive sixty-minute periods a day, five days weekly, for one semester are given to a student teaching. Plan forms are used upon which all lessons taught by students are planned. Students intending to be art supervisors are given as wide a range of teaching as possible.

Normal Art 45.2—Figure drawing.

Normal Art group, 5th semester. 9 periods, 9 hours' credit.

Drawing of the figure from the draped model is done with sanguine, oils, and designers' colors. The principles of composition are practiced in charcoal.

Normal Art 46.1—Curriculum in Art.

Normal Art group, 6th semester. 10 periods, 10 hours' credit.

This course trains the student to make a complete plan of work in art for an entire school system, grade by grade. These outlines must be adapted to rural or city schools of a given size, correlated with other school subjects, timed to fit the school year, and every lesson must be illustrated and fully developed. Supplies and material for one year's use be listed with the outline.

Normal Art 46.2—History of Art.

Normal Art group, 6th semester, 1 period, 1 hour's credit.

The development of an appreciation of pictures is an aim of this course. The characteristics of the different schools of art are considered and a study is made of American art.

Normal Art 46.3—Applied design.

Normal Art group, 6th semester. 3 periods, 2 hours' credit.

The student is given training in the tasteful application of design to a wide range of objects, including jewelry, leather, basketry, and bookbinding.

The Summer School

The Summer School is an integral part of the year's work. Teachers in service will find the courses needed for the renewal of Partial Elementary Certificates and the securing of standard Certificates offered on the Summer School program. Prospective teachers just graduated from high schools will find the courses needed to gain their first certificate. In increasing measure, students in regular attendance are availing themselves of the opportunities offered in the Summer School. It is expected that the Summer School program in 1923 will include every course of the regular curricula and many courses from the special curricula.

In 1922 Indiana enrolled at Indiana and Altoona a total of 1,419 students. It is too early, when this catalog goes to press, to announce definitely what arrangements regarding another Branch School will be made. The Summer School Bulletin will be issued in February, 1923, and will be mailed to every student in attendance in 1922 and also to every teacher in service in Indiana's immediate service area.

Reservation for rooms for the Summer School of 1923 will not be accepted before March 1, 1923.

Extension Service

Indiana is endeavoring to do its part in the preparation of teachers in service by offering extension classes and correspondence lessons, Extension classes, with teachers regularly employed as members of the Indiana faculty, will be offered whenever fifteen or more teachers desire a given course. Correspondence work in a wide variety of courses is also offered by faculty members.

An Extension Bulletin is available to all who apply to

WALTER A. ZAUGG,
Director of Extension,
Indiana, Pa.

BETWEEN CLASSES

PART IV.

Register of Students

1921-1922

September, 1921 to June, 1922

Post Graduates
